PRESENTS

**BUILDER BASE**

**INSECTICIDE**

PRE CONSTRUCTION  
TERMITE PRESERVATIVE FOR BUILDERS

✔ HIGHLY EFFECTIVE  
✘ NOT TOXIC WHEN INHALED

**BUILDER BASE**

**Builder Base**, the best insecticide brand is the result of 21 years of research and experiments. It is the best and flagship brand of the manufacturer **Qamer India Associates**. Builder Base is India's first insecticide brand formulated with non-toxic alkaline base.

## WHAT

**Builder Base** is Specially formulated for builders and it is designed to be applied at the construction stage also.

## WHY

Permanently works against the Termite habitat in the soil to permanently address termite infestations in buildings.

There are many authorized site supervisors in all the districts of Kerala, who have completed the company's training and received certificates. The company provides a warranty of up to 7 years on works completed under their supervision.

## HOW

### STEP 1

After completing the wiring and plumbing works, spray the Builder Base well in its grooves before plastering.

### STEP 2

Builder Base needs to be sprayed well on the wall at least up to the bottom of the windows (1m). Plastering should be done only after that.

### STEP 3

Before concreting the ground, Apply Builder Base on the grooves, (one foot wide and six inches deep) adjacent to all walls of the rooms, After restoring and firming the ground, spray the entire room with Builder Base. Make sure the area is thoroughly wet with it.

### STEP 4

It should also be applied outside the building, adjacent to the soil wall by digging the soil.

More details, including a video explaining how to apply, are available in [www.qamerindia.com](http://www.qamerindia.com)

## SAFTY PRECAUTIONS

The Builder Base is a strong solution, so gloves and safety shoes should be worn when handling, and away from children. Be careful not to touch the body parts or eyes&there is a risk of minor burns or other discomfort if it gets on the body. Or, if it falls on the body parts, pour clean water and wash immediately.
